Our Community Responds to Sexual Violence!

- Our HIV support group helps women who experience sexual violence.
- We can treat, counsel and refer cases of sexual violence.
- We can handle cases of sexual violence with urgency and refer to health services.
- We can support and refer women who experience sexual violence.
- We can give out information about sexual violence services available in our community.
- We know the pieces which help survivors and tell others about them.
- We can form a support group to help women who experience sexual violence.

Our community cares! Learn about services available for women who experience sexual violence and refer them.
